area of the premises: 323,000 ft²
and 237,100 sq ft for the sewing factory
of which, 86,100 sq ft for weaving, dyeing, printing and finishing

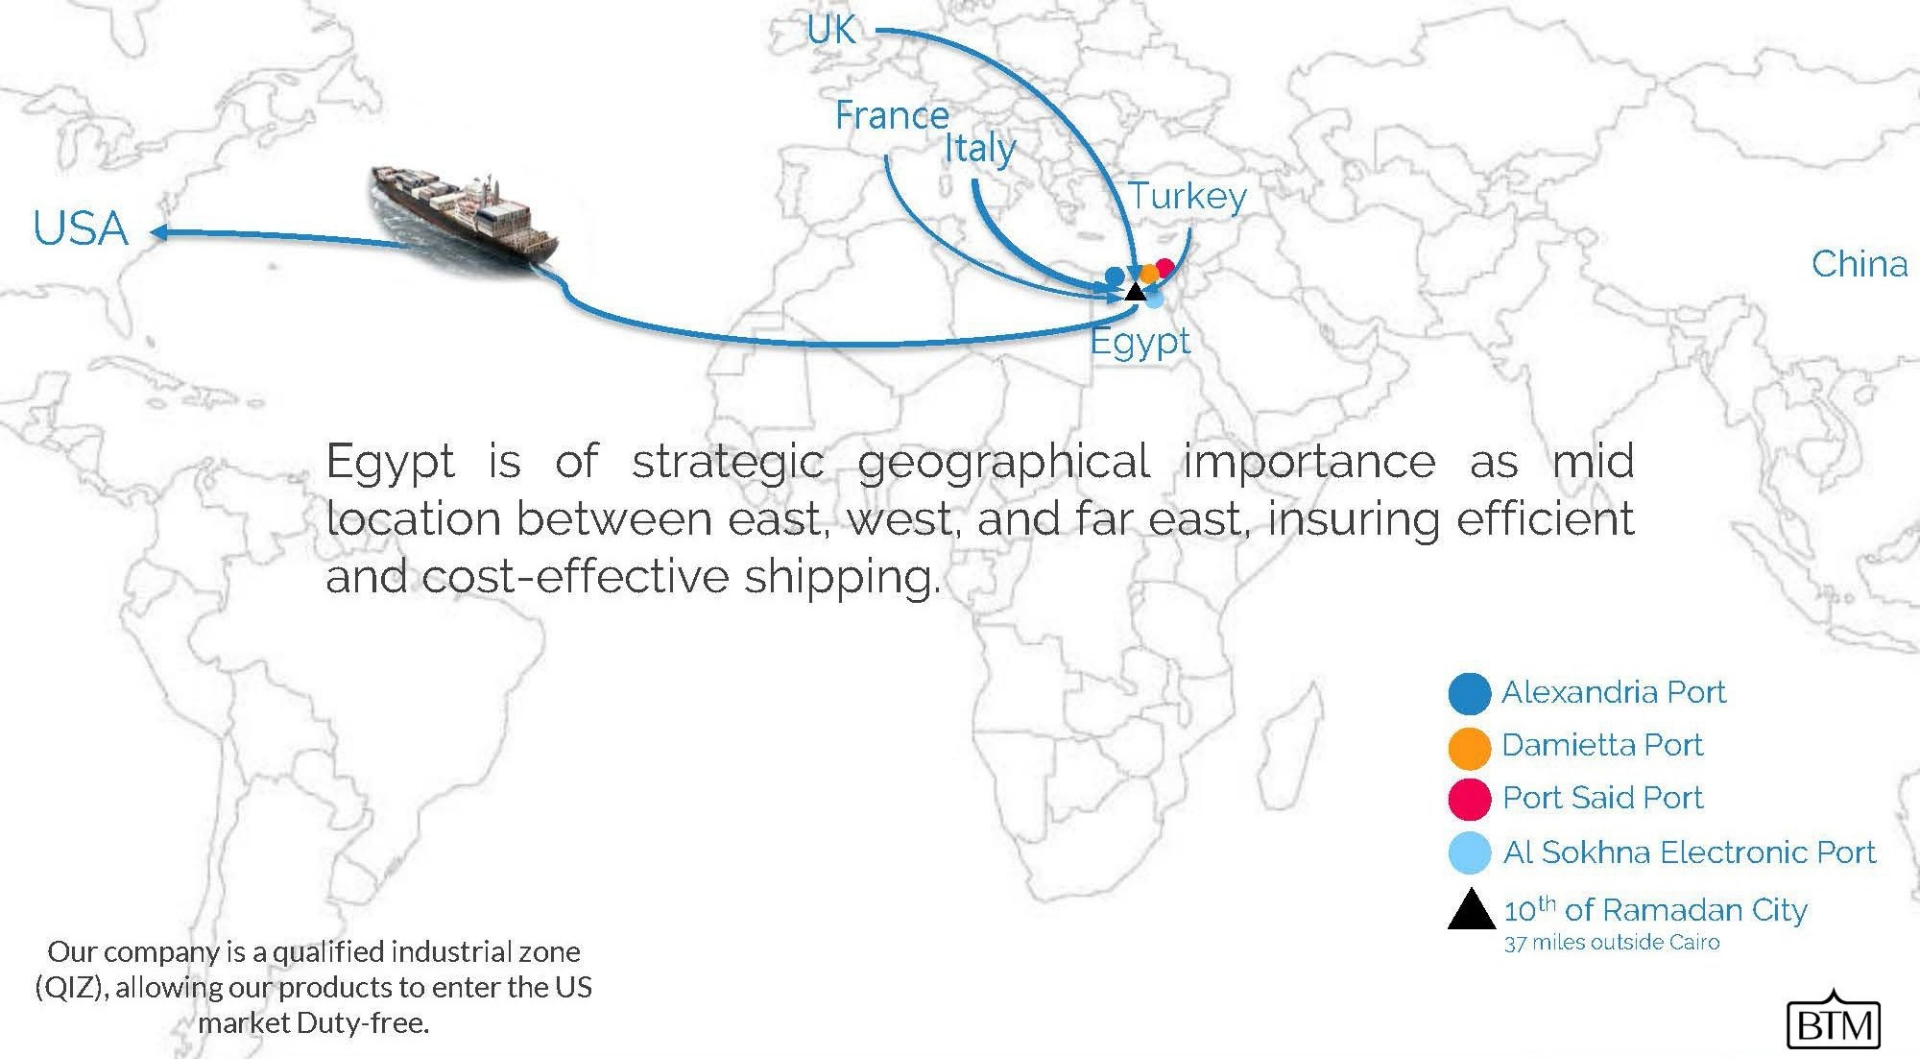

The clothing and textile industry has always been a major player in the Egyptian economy. Over the years it has become one of the most well-established industrial sectors, thus receiving the full support of the government, ensuring its growth and continuity.

Four decades ago, Bishara for Fashion Group started as Amiriya Dyers, a dyeing and printing house. It has now evolved into a vertically-integrated company, specializing in the production of high quality textiles and ready-made garments.

The founder and Chairman of Bishara for Fashion is Louis Bishara. Together with his wife, Amal Bishara as the house designer, he was the first to create a menswear fashion brand in 1980. Aside from his entrepreneurship, he is a member of the union of Egyptian industries, a senator in the Egyptian congress, and a former member of the Presidential Egyptian-American Business council.

Egypt is of strategic geographical importance as mid location between east, west, and far east, insuring efficient and cost-effective shipping.

Our company is a qualified industrial zone (QIZ), allowing our products to enter the US market Duty-free.

Bishara Textile and Garment Manufacturing Co. BTM is a completely vertical operation, from fabric to clothing-manufacturing. located in the 10th of Ramadan Industrial city of Egypt, we are a technology-driven company that strives to constantly improve its manufacturing processes while closely adhering to our commitment to quality and excellent customer service.

80/1 100% Linen

100/2 100% Cotton

80% Cotton 20% Polyviscose

Our vertical integration allows us to produce all kinds of woven fabrics, ranging from high quality worsted wool, carded wool and wool blends to fine woven Egyptian cotton fabrics, according to customer needs. That is in addition to our major specialization in the tailoring of men's and ladies wear, ranging from tailored suits to shirts, trousers, etc.

We currently employ over a thousand employees.

Beyond the figures you will find a young and enthusiastic team hard at work

Kannegiesser, Germany

Hoffman Press, USA

As top quality apparel manufacturers, our process begins with research, design, and product development, then continues on through apparel pattern-making and grading.

Next, garments are constructed in the cutting and sewing departments and are passed through several quality control inspections along the way.

Our commitment to a continuous program of Quality Assurance and environmental preservation has been acknowledged and acclaimed.

In accordance with local and international law, BTM is in compliance with international guidelines for vendors known as a 'shared commitment'

QIZ Experience

Bishara is a member of the QIZ (Qualified Industrial Zones).

Under QIZ Egyptian exports to the USA
are duty free provided that they
have a 10.5 % Israeli components

EUR. 1 Certificate

An EUR1, also known as a 'movement certificate that enables importers in certain countries to import goods at a reduced or nil rate of import duty under trade agreements between the EU and beneficiary countries.

Under EUR.1 certificate Bishara Textile & garment
Manufacturing (BTM) exports to the EU are duty free

Hoffman, USA

Finally the garment is sent to the finishing department to be pressed, examined again, hung, tagged and shipped according to our clients' specifications.

Our manufacturing facility employs Gerber garment technology and Great Planes software solutions to coordinate garment production, as well as internationally acknowledged quality inspection procedures.

Over the years, Bishara for Fashion has become a leader in customer service, manufacturing technology and data processing. It has a strong reputation as a supplier with full-service capabilities.

All the products we design are diligently tested against our strict standards and are a promise of uncompromising style, quality, comfort and durability.

Quality, reliability, comfort, and durability are the backbone of all our designs. We combine all these elements and give you garments that are easy to maintain, yet unique and distinguishable in their own special way.

- No employee under the minimum legal age is hired.
- A completely non-smoking environment guaranteed.
- Automatic fire fighting system available on site.
- Free transportation available for all employees.
- Training center for all newly-employed personnel.
- All sewing, cutting and production rooms are fully air conditioned.
- Medical staff and a clinic are available for all employees and their families, in addition to health insurance coverage.

Amal Bishara Vocational Secondary School.

Since its foundation in 2008, the Amal Bishara School has received and educated over six hundred secondary trainees showing an interest in craftsmanship. With a curriculum approved by the ministry of education and adjusted according to industry needs; successful candidates leave the school with a certified degree, allowing them to become professional technicians.

Trainees at Amal Bishara School receive a mixture of educational and vocational training . specializing in various lines of production at their training center . By doing this the school aims to :

- Find solutions for unemployment.
- Encourage trainees to support their families.
- Encourage financial independence.
- provide trainees with an alternate educational system other than the governmental national system.
- Provide the industry with a large number of qualified professionals, ready to work at any company.
